PLAYBOOK FOR NEXT 5

STRATEGIC SEQUENCE • FLIPPED

Foundation Before Expansion

Building partnerships without a strong digital profile creates a leaky bucket. If they search you and you're not Top 3 in Maps, conversions are lost.

Leaky Traffic = Wasted Partnership

Partner promotes → audience Googles "Six Hands PIM 3" → GBP kosong, no reviews, kalah rank → pindah ke salad bar lain. Budget partnership hilang.

01 **Fase 1: Foundation & Capture — Our Priority Now**

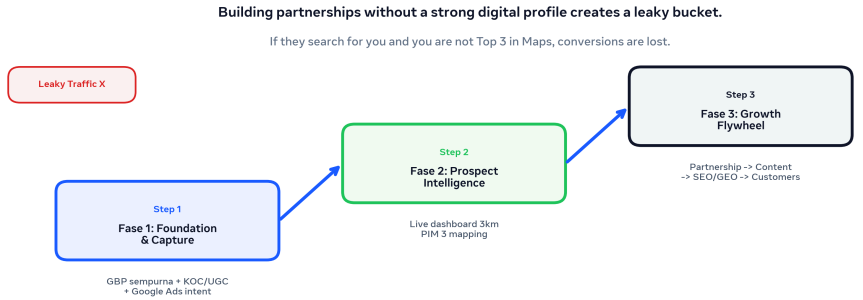

Setup GBP sempurna, injeksi early-traffic KOC/UGC 10-20 micro, tangkap intent via Google Ads PMax 0.5–3km

02 **Fase 2: Prospect Intelligence**

Live dashboard radius 3km PIM 3 — map fitness, corporate, community, lifestyle — score high potential

Every partnership = mention → UGC → reviews. Google + AI learn that local ecosystem talks about Six Hands. Top 3 Maps locked.

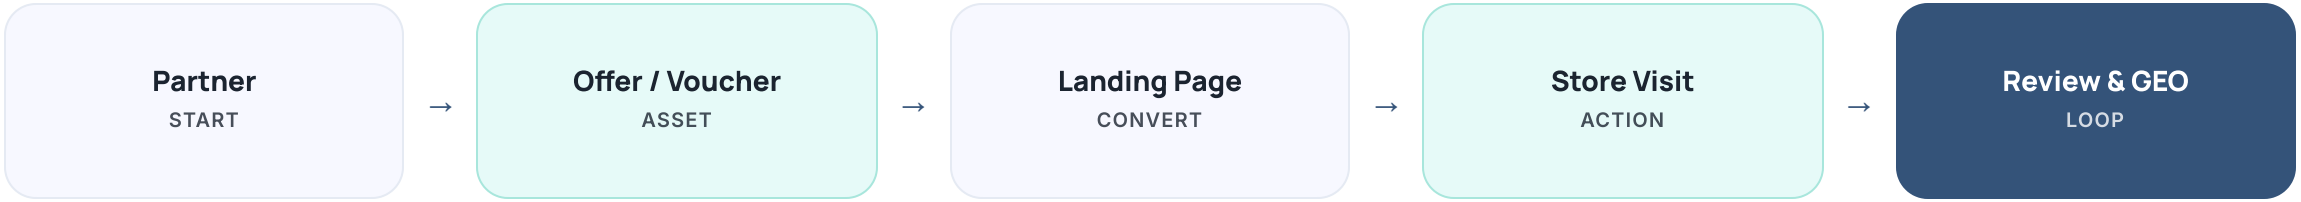

MEASUREMENT • NO VANITY

Pipeline to Revenue

Track visits per partner, not CPC. Every partner gets unique code / landing to prove real store visits.

COST PER VISIT PER PARTNER

THE FLOW: START → ASSET → CONVERT → ACTION → LOOP

WHAT WE MEASURE

Cost per visit per partner, not CPC

Unique voucher code + UTM per partner. We know exactly which Pilates studio drove 32 visits at Rp 28k per visit.

KEY QUESTION

Which partner drives 20+ visits / month?

Top 20% partners usually drive 80% visits. Focus budget there.

THE OUTCOME

Scale winners. Cut losers. Retarget.

Winning partner audiences → lookalike for Meta & Google Ads → lower overall CAC for PIM 3.
